

# Exchange programme | Teacher Training

## YOU LOVE WORKING WITH CHILDREN – PRE-SCHOOL

You are fascinated by the inquisitiveness and imagination of young children. You are eager to help them develop and explore the wide world together. You enjoy singing, playing, and being creative.

As a kindergarten teacher, you supervise and stimulate the learning and development process of children aged 2.5 to 6. You guide them on a journey of discovery through the wondrous world of colours and sounds, nature and technology, numbers and letters. We are happy to help to prepare you for this unique job!

## YOU WANT TO INSPIRE CHILDREN – PRIMARY SCHOOL

You have broad general knowledge, and you are naturally inquisitive. Your dream job is varied, diverse, and presents new challenges every day. You would love to work with children aged 6 to 12. You can easily connect with them on their level and enter their world.

You are open to the world around you and are confident in your abilities. You have excellent social and communication skills. You enjoy talking to parents and get inspiration from working with colleagues.

Do you recognise yourself in this profile? We will help you become a modern, well-rounded teacher who can connect easily with pupils.

## YOUR DREAM JOB IS TO TEACH – SECONDARY SCHOOL

You want to inspire and support young people. You are passionate about a specific secondary education subject (science, language, sport, art, technology, history) and want to share your knowledge with young people aged 12 to 18. Teaching teens a specific subject and helping them develop is your talent!

Teaching is a unique profession that requires a lot of independence and responsibility. You will continually challenge pupils to push past their boundaries.

Perhaps you have a special teacher in mind who left a lasting impression on you. Perhaps you want to do the same: become an enthusiastic coach whose personality and teaching method inspires and captivates young people.

## OVERVIEW

### THE TEACHER EDUCATION PROGRAM COMBINES KNOWLEDGE AND INTERNSHIP IN YOUR FIELD OF INTEREST.

Please read carefully the prerequisites of every course before applying. Thomas More remains the right to change the learning agreement upon arrival if the student doesn't meet the requirements to enter the course.

We advise students to choose courses of approx. 30 ECTS.

The combination of courses can be restricted by planning issues and will be communicated beforehand. Courses with (\*) are courses of the regular program in teacher education opened up for Erasmus students. This means that the medium of instruction is a combination of Dutch and English. More information in the course description.

Courses can be different for Erasmus and Erabel students.

Erabel students coming to improve their language skills in Dutch can choose several courses of the regular program.

#### The academic year in a nutshell

	Code	ECTS	Autumn	Spring
<b>POSSIBLE COURSES ERASMUS</b>				
Interdisciplinary course: Survival Dutch		3	x
