

About the project

In the Erasmus-Plus Project we have run four workshops with teachers and parents in Germany, Italy, Turkey and Sweden. Together, we developed a training concept for teachers and parents of newly migrated children supporting them with innovative methods and knowledge. Moreover, we established new concepts how to enhance communication between schools and migrates families.

Project partners are Back on Track e.V. in Berlin, the University of Gävle in Sweden, the University of Muğla in Turkey and the University of Calabria in Italy. The project is led by the University of Education Schwäbisch Gmünd.

Our training and best-practice are online on www.parent-able.com and available in English and Arabic.
